=====

AWS Pentesting Policy

Objectives:

- Identify what permissions are given by Amazon to pentest in the AWS environment
-
- Are we allowed to perform a penetration test in the AWS environment?
 - Another way to say "Do we need permission?"
 - How do we get permission?
 - <https://aws.amazon.com/security/penetration-testing/>
 - Permitted Services
 - Prohibited Services
 - DDoS and Stress Testing
 - While prohibited, can still be allowed
 - Special permission
